2008 Annual Report
President’s Letter

The George Gund Foundation, like other investors, has suffered great losses in the value of our portfolio. This resource is the very basis upon which we make the grants that advance our goals, and as 2009 began we confronted increasing societal needs with a reduced arsenal. Yet, we share the view of those who see opportunity in crisis, and we are responding to the economic downturn in several ways that we believe will maximize the impact of diminished financial capacity.

First, we have tightened our operating budget in a variety of ways. The letter you are reading is one example – it appears in our first online annual report. By not printing an annual report, we are able to save thousands of dollars that can go into the grant budget.

We also are increasing the percentage of our assets that we give away. Federal tax law requires that private foundations spend 5 percent of their assets every year, and we always exceed that minimum. In 2009 we will go substantially beyond that, although it is impossible to pinpoint the percentage in advance because of the fluidity of the market value of our portfolio. However, the dramatic drop in portfolio value means that even with an increased percentage, the dollars available for grants still will likely decline in 2009. This is, in part, a result of multi-year grants to important community projects in Cleveland that extend into the future. We will, of course, honor those commitments but doing so automatically reduces our ability to consider new grants of similar magnitude.

We are always attuned to opportunities to encourage creative collaborations, and such endeavors have never been more important. Times like these demand that all of us focus on shared undertakings, and we will work with many nonprofit agencies to identify and implement collaborations in the year ahead. In some instances this will be a way to enhance service, but in others it may be a matter of survival. We cannot avoid the challenges of collaborations simply because they are difficult.

The Gund Foundation has long been noted for its support of organizations that take on public policy advocacy. This is a central part of our philosophy and of how we operate. The economic difficulties of the moment provide numerous openings for policy engagement because government is assuming an expanded role. That fact, along with the evident increase in need, compels us to increase our efforts to seek out strategic policy support grants, and these may also be worthwhile models of collaboration. In 2008 many of our grantees joined forces to push policy initiatives to success. These include the state’s ban on onerous “payday lending” interest charges and Ohio’s adoption of a Renewable Portfolio Standard mandating increases in green energy sources.

As we all work through this difficult time, we also want to maintain open communication with our grantees. Uncertainty abounds, but we will do everything we can to minimize it. The first step is always to share information and concerns.

Finally, we wish to welcome Anna Traggio, a granddaughter of our Foundation’s founder, as a Trustee Candidate in 2009. We are confident that her outlook and insights will be important contributions to our deliberations.

Geoffrey Gund
President and Treasurer
The difficulties of the present tempt us to ignore the future. The current economic crisis has created needs that are immediate, growing and real. The charitable impulse naturally bends toward needs of the moment, but foundations also must constantly look to the horizon in order to achieve the greatest good.

Indeed, philanthropy is uniquely positioned to think longterm, and it is important for us to use our role to help others act beyond short-range responses. That is why we should think about the needs of children, such as those who are featured in this annual report’s photographic essay, when weighing investment decisions. The future of those children should motivate us more than our present circumstances.

The children are pictured in various early education centers supported by Invest in Children, Cuyahoga County’s model public-private partnership that strives to improve the life of every child in the county. It is one of the best expressions of our hope to have a culture that values and supports the growth of children. It reflects not only the moral imperative to nurture our youngest citizens but also the conviction that few things pay such abundant social dividends as investing in early care and education. In a society that was excessively focused on immediate rewards even before the economic crisis hit last year, some serious thinking about children would do us good. It would help us commit to the long-term action that is needed to truly meet our challenges. Yes, we need economic stimulus that puts people back to work. Yes, we want growth now. But the most important issues we face are systemic and entrenched. Our country requires more than a quick shot in the arm. We need transformation.

Take education, for example. Because of our archaic education system, America no longer leads the world in educational attainment, and we are rapidly dropping in the ranks. Our performance against international standards is mediocre. The sheer difficulty of this challenge must not cause us to shirk it. Everyone has a stake in how we take action. Philanthropy, in particular, must engage policymakers and citizens alike in order to build the will and capacity that we need to make the change that our children—and the rest of us—require. The Ohio Grantmakers Forum has become an especially valuable collaborative voice for philanthropy on education issues and has effectively pushed for systemic change. Much more work lies ahead.

We need transformation of equal magnitude in meeting society’s energy demands, in our stewardship of the planet and in how we provide health care. In Northeast Ohio, the makeover we require includes our regional economy because we became too dependent on an industrial manufacturing model that is no longer competitive. We are similarly attached to our region’s absurdly inefficient, inequitable and ineffective tangle of local governments. They, too, must become the focus of serious reform. The Fund for Our Economic Future, a collaborative of grantmakers and others, has targeted these issues with promising early results. Yet, effort applied to these and other deep-seated issues will fall short if it is not consistently maintained for the long term.

Our short attention span plagues us. Much of the national debate around solutions centers on immediate stimulus and alleviating distress now. Such measures respond to the crisis, but they do not fully seize the opportunity that this crisis presents. If ever there were a time to direct our focus toward meaningful, concerted campaigns on our most stubborn issues, this is it. Philanthropy can play its part, but everyone needs to join that effort. Thinking about the children pictured here is a good place to start.

David T. Abbott
Executive Director
Summary of 2008 Commitments

**Arts**
57 grants  
$3,219,600

**Economic Development and Community Revitalization**

**Grand Total**
262 grants and one program-related investment  
$18,385,101

**Total since inception of the Foundation in 1952**
$523,134,417
Arts

The Foundation maintained its commitment to ensuring the vitality of Cleveland’s arts community and nurturing its creative class with grants to organizations, both large and small, that reached audiences in neighborhoods and schools as well as in traditional performance and exhibition venues and that offered opportunities for local artists. A $125,000 grant to Young Audiences helped launch Art is Education, an integrated arts education program that is being piloted in eight Cleveland Municipal School District schools. Arts grantmaking totaled $3,219,600.

Economic Development and Community Revitalization

The Foundation continued operating support for organizations working effectively to create a vibrant city, including Downtown Cleveland Alliance, Greater Cleveland Media Development Corporation and ParkWorks. Both a grant and a program-related investment were made to support the Uptown residential and retail project in University Circle, a Cleveland hub of higher education, medicine, culture and entrepreneurship. The Cleveland Housing Network received support for its programs responding to the mortgage foreclosure crisis. Total economic development and community revitalization support included $2,312,532 in grants and a $2 million program-related investment.

Human Services
The Foundation continued to seek opportunities for innovative public policy reform created by changes in state and federal governmental leadership in Ohio and Washington D.C. Grants emphasized support for advocacy efforts aimed at strengthening public investment and income supports for low-income children and families. Highlights included grants for juvenile justice reform, payday lending reform, comprehensive sexuality education, children’s behavioral health and historically disenfranchised voter engagement. Human services grantmaking totaled $2,582,799.

George Gund

The George Gund Foundation was established in 1952 as a private, nonprofit institution with the sole purpose of contributing to human well-being and the progress of society. Over the years, program objectives and emphases have been modified to meet the changing opportunities and problems of our society, but the Foundation’s basic goal of advancing human welfare remains constant.

George Gund was born in La Crosse, Wisconsin, and his family settled in Cleveland in 1897. Following graduation from Harvard College (1909) and graduate study at Harvard Business School, his early career included banking and real estate in Seattle, serving in Army intelligence during World War I, developing the Kaffee-Hag Corporation in Cleveland, attending Animal Husbandry School at Iowa State University and ranching in Nevada.

In 1936, Mr. Gund married Jessica Roesler and settled down in Cleveland to raise a family. His interest in banking culminated in his becoming President of The Cleveland Trust Company in 1941. At his death in 1966, he was Chairman of the Board.

In 1937, Mr. Gund began a formal program of charitable giving, and his philanthropic concern extended throughout his life. He carefully selected those charities to which he committed his funds. If the commitment was considerable over a long period of time, he characteristically devoted much of his time and energy to the institution.

Strong relationships developed with the educational institutions that shaped Mr. Gund’s early life. He contributed time and money to University School (Cleveland), where he was a trustee, and to Iowa State University, where he established a scholarship program for students of animal husbandry. He served on the Board of Overseers of Harvard College from 1954 to 1960 and was closely involved at Harvard with the School of Public Health and the Business School from 1954 to 1966. Another interest in higher education was Kenyon College, where he served as a trustee for many years.

Although Mr. Gund had little personal experience in the arts, his devotion to them was great. Perhaps the single best example was his long association with the Cleveland Institute of Art. In 1942, he became President of the Institute and, under his leadership, saw it develop into a lively and prestigious institution.

The George Gund Foundation was created in 1952 because Mr. Gund believed the private foundation concept provided the most positive, farsighted vehicle for intelligent underwriting of creative solutions to social ills in a manner which would not be limited to his own lifetime. He favored the corporate foundation structure directed by an experienced, sensitive board of trustees entrusted not only with disbursement of funds, but an objective, practical review of proposals. He valued the degree of freedom a private foundation can exercise in seeking and fostering innovative ideas and in implementing demonstration projects.

Today, Mr. Gund’s vision is carried forth through the continued involvement of the Gund family in the Foundation’s work. Since its inception, the Foundation has made grants totaling more than $523 million toward the advancement of human welfare.

The accompanying notes are an integral part of the financial statements.
Note 1 – Summary of Significant Accounting Policies

NATURE OF OPERATIONS  The George Gund Foundation (“the Foundation”) is a private foundation which makes grants to educational, community service and philanthropic organizations, basically in Greater Cleveland.

BASIS OF ACCOUNTING  The Foundation’s financial statements are presented on the accrual basis of accounting. Accordingly, revenues are recorded when earned, and expenses are recognized when incurred. The Foundation has only unrestricted net assets.

USE OF ESTIMATES  The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

CASH AND CASH EQUIVALENTS  Cash and cash equivalents consist of highly-liquid investments with maturity dates of three months or less which are readily convertible into cash.

INVESTMENTS  Marketable and U.S. securities are reported at their market value. Securities traded on a national securities exchange are valued at the last reported trading price on the last business day of the year. Realized gains or losses are determined by comparison of asset cost to net proceeds received. Unrealized gains or losses are determined by comparison of asset cost to market values at the end of the year. Presenting the fair value of program-related investments is impractical since the purpose of these investments is to provide low interest loans to nonprofit organizations to assist them in their specific projects.

The Foundation invests in certain alternative investments which include investments in limited partnerships. Market values represent the Foundation’s pro rata interest in the net assets of each limited partnership as of December 31, 2008 and 2007, as provided by the fund managers. Market values as of December 31, 2008 and 2007 are not based on audited financial information supplied by the general partner or manager of the funds. Audited information is only available annually based on the partnerships’ or funds’ year end. Management reviews monthly valuations provided by the general partner or manager of the funds and assesses the reasonableness of the fair values provided at the interim dates and included in the financial statements. As of December 31, 2008 and 2007, the Foundation had total unfunded capital commitments to alternative investments of $9,109,134 and $7,859,134, respectively. Because of the inherent uncertainty of the valuation of alternative investments, the market values reflected in the accompanying financial statements may differ significantly from realizable values.

FURNITURE, EQUIPMENT AND LEASEHOLD IMPROVEMENTS  Furniture, equipment and leasehold improvements are stated at cost. Amortization and depreciation is recorded using both straight-line and accelerated methods over the estimated useful lives of the assets. Depreciation and amortization expense amounted to $64,050 and $55,400 for the years ended December 31, 2008 and 2007, respectively.

FAIR VALUE MEASUREMENT-DEFINITION AND HIERARCHY  The Foundation adopted the provisions of Statement of Financial Accounting Standards No. 157, “Fair Value Measurements” (SFAS No. 157), effective January 1, 2008. Under this standard, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the “exit price”) in an orderly transaction between market participants at the measurement date.

In determining fair value, the Foundation uses various valuation approaches, including market, income and/or cost approaches. SFAS No. 157 establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs that market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the Foundation. Unobservable inputs are inputs that reflect the Foundation’s assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The hierarchy is broken down into three levels based on the reliability of inputs as follows:
LEVEL 1
• Valuations based on quoted prices (unadjusted) in active markets for identical assets or liabilities that the Foundation has the ability to access. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these products does not entail a significant degree of judgment.

Assets and liabilities utilizing Level 1 inputs include exchange-traded equity securities that are actively traded.

LEVEL 2
• Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.

Assets and liabilities utilizing Level 2 inputs include: corporate and municipal bonds.

LEVEL 3
• Valuations based on inputs that are unobservable and significant to the overall fair value measurement. Unobservable input may be developed by outside third parties using marketing models based on information available to them. Unobservable inputs shall reflect the reporting entity’s own assumptions about the assumptions that market participants would use in pricing. Unobservable input shall be developed based on the best information available in circumstances, which might include the reporting entity’s own data.

Assets and liabilities utilizing Level 3 inputs include: private equity investments, private equity investments in mutual funds and program related investments.

### Note 2 – Investments

Cost and market value of investments held at December 31, 2008 and 2007 were as follows:

<table>
<thead>
<tr>
<th></th>
<th>2008</th>
<th>2007</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>MARKET VALUE</td>
<td>COST</td>
</tr>
<tr>
<td>Fixed income securities</td>
<td>$15,261,604</td>
<td>$19,913,517</td>
</tr>
<tr>
<td>Common stocks and alternative investments</td>
<td>313,357,375</td>
<td>291,393,331</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>$328,618,979</strong></td>
<td><strong>$311,306,848</strong></td>
</tr>
</tbody>
</table>

Market values of investments are based on December 31, 2008 and 2007 published quotations, except that estimates are used when quotations are not available. Fixed income securities consist of U.S. government securities, U.S. government guaranteed securities and corporate securities. Common stocks and alternative investments consist principally of U.S. and international equity securities, investments in equity mutual funds, program-related investments and investments in limited partnerships.

Published market quotations do not necessarily represent realizable values, particularly where sizable holdings of a company’s stock exist, as in the case of the Foundation’s holding of the Kellogg Company common stock.
Note 3 – Fair Value Disclosure and Measurement

The Foundation’s assets and liabilities recorded at fair value have been categorized based upon a fair value hierarchy in accordance with SFAS No.157. See Note 1 for a discussion of the Foundation’s policies regarding this hierarchy.

The following fair value hierarchy tables present information about the Foundation’s assets and liabilities measured at fair value on a recurring basis as of December 31, 2008:

The amount of total gains or losses for the period included in changes in net assets attributable to the change in unrealized gains or losses relating to assets still held at the reporting date:

|                          | $ 20,584,496         | $ (63,282,490)                      | $ (63,370)        | $ (83,930,356) |

Gains and losses (realized and unrealized) included in changes in net assets for the period include net investment gains of $1,219,982 and net unrealized investment losses of $83,930,356.
Notes to Financial Statements (continued)

DECEMBER 31, 2008 AND 2007

Note 4 – Credit Concentration
Aside from its holdings in the Kellogg Company, the Foundation’s portfolio of investments is highly diversified; however, at December 31, 2008 and 2007, 35% and 27% of the total market value of securities and 73% and 67% respectively, of dividend income in each year are attributable to ownership of Kellogg Company stock. The Foundation also has a concentration of risk in its cash position as of December 31, 2008. The Foundation has approximately $6,600,000 in one checking account that is insured by the F.D.I.C. up to a limit of $250,000.

Note 5 – Leases
The Foundation occupies office space in the Landmark Office Towers under a lease that terminates on December 31, 2018. Base annual rentals are $120,080 for the remaining term of the lease, with escalation charges from these base rentals. There are renewal options for additional periods. Rental expense for the years ended December 31, 2008 and 2007 amounted to $149,948 and $154,885, respectively.

The future minimum lease commitments for the next five years under leases with terms in excess of one year are as follows:

<table>
<thead>
<tr>
<th>Year</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>2009</td>

</tr>
</tbody>
</table>

Note 6 – Net Assets
Net assets include the accounts of two board-designated funds (principal and income) both of which consist entirely of unrestricted net assets. The principal fund consists of investments in securities and receives the realized and unrealized gains or losses on those assets. The income fund receives interest and dividends on the principal fund investments which are used for grants and administrative expenses. At December 31, the statements of financial position included the following income fund accounts:

<table>
<thead>
<tr>
<th>Account</th>
<th>2008</th>

<td>508,716,301</td>
</tr>
</tbody>
</table>

Net assets – ending

$ 325,225,977 $ 505,515,874

The change in individual funds includes transfers by the Foundation of $20,008,461 in 2008 and $19,060,320 in 2007 from the principal fund to the income fund.
Note 7 – Employee Benefit Plan
The Foundation has an employee's tax-sheltered annuity plan for all eligible employees. Such a plan is intended to comply with the requirements of Section 403(b) of the Internal Revenue Code (IRC). Employer contributions are required at 9% of the participants’ compensation up to the Social Security wage base for the year and 14.7% of the participant’s compensation in excess of this wage base, with a limit of $230,000 of compensation for the year ended December 31, 2008 and $225,000 for the year ended December 31, 2007. Employer contributions to the plan for the years ended December 31, 2008 and 2007 amounted to $110,496 and $107,661, respectively. Participants are also permitted to make salary reduction contributions to the plan.

Note 8 – Excise Taxes
The Foundation is exempt from federal income taxes under Section 501(c)(3) of the IRC, but is subject to a 2% (1% if certain criteria are met) federal excise tax on net investment income, including net realized gains, as defined by the IRC.

Deferred federal excise taxes are provided on the unrealized appreciation or depreciation of investments and interest and dividend income and certain expenses being reported for financial statement purposes in different periods than for tax purposes.

Current and deferred excise taxes were provided at 2% for 2008 and 2007. The current and deferred portions of the excise tax provisions were $296,632 and $(1,890,569), respectively, netting to $(1,593,937) in 2008. The current and deferred portions of the excise tax provisions were $621,304 and $(219,941), respectively, netting to $401,363 in 2007.

In June of 2006, the Financial Accounting Standards Board (FASB) issued Interpretation No. 48, “Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109” (FIN 48). FIN 48, which clarifies the accounting for uncertainty, if any, in income taxes as recognized in financial statements in accordance with FASB Statement No. 109, “Accounting for Income Taxes,” represents a significant change in the accounting and reporting of income taxes.

FIN 48 prescribes the accounting for uncertainty in income taxes by providing guidance on the recognition threshold and measurement of a position taken in a tax return or a position expected to be taken in a tax return. Additionally, FIN 48 provides guidance on derecognition, classification, disclosure and transition. FIN 48 requires the cumulative effect of adoption to be recorded as an adjustment to the opening balance of net assets. The effective date of FIN 48 is for fiscal years beginning after December 15, 2006. In December of 2008, the FASB issued FASB Staff Position FSP FIN 48-3 that allows nonpublic enterprises to elect to defer FIN 48 to the annual financial statements for fiscal years beginning after December 15, 2008.

The Foundation has elected to make the deferral of FIN 48 to the annual financial statements for fiscal years beginning after December 15, 2008. The Foundation is of the opinion that when implemented FIN 48 will not have a material effect on the financial statements.
Independent Auditors’ Report
TO THE BOARD OF TRUSTEES, THE GEORGE GUND FOUNDATION

We have audited the accompanying statements of financial position of The George Gund Foundation as of December 31, 2008 and 2007, and the related statements of activities and cash flows for the years then ended. These financial statements are the responsibility of the Foundation’s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of The George Gund Foundation at December 31, 2008 and 2007, and the results of its activities and its cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Grant Guidelines

The history of The George Gund Foundation reflects a deep commitment to place, to the Greater Cleveland community that was the home of its founder and that remains the Foundation’s home. The Foundation’s philanthropic stewardship of this region derives not just from our history, but also from our belief that Cleveland can continue to develop original responses to urban issues and from our hope that collaborations across boundaries can create a crucible of innovation in all fields of endeavor. Moreover, the urban emphasis of our work stems from a belief that thriving cities are among the nation’s best hopes for addressing our essential problems. This focus is especially vital in an era of diminished government involvement in urban issues, intensifying globalization and heightened awareness of the central role of regions.

The Foundation’s guidelines reflect our long-standing interests in the arts, economic development and community revitalization, education, environment and human services because these areas embrace most of the major issues that any community must address. While we continue to organize much of our work within these program areas, there is increasing awareness that many issues and, therefore, many grant proposals do not fit neatly into one program category. Indeed, the work of a growing number of nonprofit organizations brings together aspects of several of our core interests, and, as a result, we are becoming ever more interdisciplinary in our approach.

This is particularly evident with initiatives that aim to make Cleveland, and urban areas generally, more globally competitive, livable, sustainable and just. It is in this domain that the greatest need and maximum opportunity converge with the Foundation’s primary interests, expertise and ongoing stewardship. We especially seek to support innovative ideas being pursued by creative and entrepreneurial organizations.

Our primarily urban focus motivates us to devote attention and resources to the illumination of policies that shape the issues we care about. National, state and local policymaking affects all of the Foundation’s work and the work of the organizations we fund. Consequently, we feel a special obligation to support the nonpartisan voice of nonprofit advocacy in policy deliberations that directly relate to our program interests.

Global climate change is an urgent issue that cuts across all of the Foundation’s program areas. Every organization and individual can help to address this problem. The Foundation takes seriously our own responsibility, and we now require grant applicants to tell us what they are doing to reduce or to eliminate their organizational impact on climate change. Our website includes links to helpful resources, and Foundation staff will assist grant seekers – both new and those of long standing – in all of our program areas with questions they may have.

Arts
The Foundation values and supports the role the arts play in making Cleveland and its region a more desirable place to live, encouraging the growth of a creative workforce, catalyzing development in our neighborhoods and serving as a bridge between various segments of the community. The Foundation encourages a lively, diverse arts community in Greater Cleveland by funding projects in the city and its first-ring suburbs that contribute to Cleveland’s urban vitality, attract new audiences, expand artistic offerings and increase organizational capacity. We also try to balance continuing support that ensures the stability of Cleveland’s arts institutions with funding for new initiatives, programs and organizations that foster creativity in our community. Arts education continues to be a priority, with a focus on curriculum-related partnerships between arts organizations and the Cleveland Municipal School District. In addition, the Foundation seeks to advance the region’s understanding of the importance of the arts by supporting the Community Partnership for Arts and Culture.

Economic Development and Community Revitalization
Sustaining uniquely urban assets such as vibrant neighborhoods and a thriving downtown is a key part of a successful regional strategy to promote economic growth. The Foundation devotes considerable attention to these dynamics, in particular...
by supporting collaborative efforts that leverage resources. As a result, the highest priority is given to initiatives that bolster the impact of Foundation-supported intermediary organizations working to improve the competitiveness of Cleveland’s neighborhoods and its metropolitan region. Examples of such initiatives include quality urban planning and design, improvements to urban parks and other public spaces, promotion of equal opportunity and diversity in housing and the workplace and proposals to redevelop Cleveland’s downtown, neighborhoods and first-ring suburbs.

Education
Education is fundamental to success, and if Cleveland is to produce, attract and retain talent and be the thriving center of a robust regional economy, expectations about education must rise exponentially. Consequently, our Foundation’s focus is on the transformation of public education in Cleveland in order to equip children from early childhood onward with the skills they ultimately will need to meet the demands of college, the 21st-century workplace and international standards. Our primary area of interest is the creation and support of new, innovative, excellent schools in Cleveland. Related to that strategy is the recognition that high quality teachers supported by excellent principals make an enormous difference in student success. Therefore, we seek to support efforts to guarantee quality teachers and principals in every classroom and school. We maintain a desire to support disadvantaged students through key transitions, especially to higher education. We also have an interest in the efforts of public and private universities in Greater Cleveland to forge innovative ventures that enhance the region.

Environment
Human well-being is inextricably linked to the quality of the environment. Urban areas bring this fact into sharp focus as historic disregard for the environment and modern development pressures create great challenges. Cleveland’s relationship to these issues – and, therefore, its opportunity – are unique because the 1969 fire on the Cuyahoga River was a key factor in launching the modern environmental movement. The Foundation supports organizations that seek to build on that legacy in order to transform the community into a model of urban sustainability. The Foundation focuses on opportunities to take advantage of Cleveland’s distinctive ecosystem to advance environmental improvements, promote alternatives to urban sprawl, devise innovative ways for cities to take a leading role in the fight against climate change and increase public awareness of environmental issues.

Human Services
Heightened focus on developing a more globally competitive city and region demands recognition that people are at the heart of this effort and that all segments of society can make constructive contributions. To maximize these contributions, direct attention must be paid to the needs of those most at risk of being left out of social and economic transformation. Building human capital begins at birth, and the Foundation pays special attention to the needs of Greater Cleveland’s disadvantaged children through grants to support early childhood care and education, abuse prevention and improved foster care and adoption systems. In addition, the Foundation provides some support for the local “safety net” of food, clothing, shelter and access to health care. A closely related set of interests is reflected in the Foundation’s desire to help vulnerable populations achieve access to health insurance, the legal system, community support following release from prison and safe and affordable reproductive health services.

The Foundation normally does not consider grants for endowments. Capital requests must meet the Foundation’s program goals and also adhere to “green building” standards of environmental sustainability. Details on these requirements are available from the Foundation. Grants are not made for debt reduction or to fund benefit events.

The Foundation does not make grants to individuals, nor does it administer programs it supports. Grants are limited to organizations located in the United States.

The Foundation makes grants only to organizations that meet Internal Revenue Code requirements as nonprofit tax-exempt organizations and to qualified government units and agencies. Grant funds may not be used to participate or intervene in any political campaign on behalf of or in opposition to any candidate for public office.
Grant Application Procedures

The Foundation encourages inquiries about the application of our funding guidelines to specific ideas in advance of the submission of formal proposals. Foundation staff welcome the opportunity to provide guidance, suggest alternatives and recommend partners.

Proposals are considered by the Foundation’s Trustees in March, June, September and December. Deadlines for submitting proposals for consideration at the next regularly scheduled meeting of the Trustees are December 15, March 15, June 15 and September 15. Proposals are due the next business day if a deadline falls on a weekend.

All proposals must include a climate change statement, a brief explanation of what the organization is doing or considering to reduce or to eliminate its impact on climate change. The Foundation’s website, www.GundFoundation.org, includes resources to assist grantees with this task. In this same spirit, we ask that applicants do not submit proposals in notebooks, binders or plastic folders and print proposals on both sides of each sheet of paper.

Applicants also must include a completed cover sheet, available at www.GundFoundation.org, which is signed by the organization’s board chair and executive director. Proposals should also include:

Organizational Background
History, mission, programs offered, constituencies served.

Project Description
Justification of need, specific goals and objectives, activities planned to meet goals and objectives, project timeline, qualifications of key personnel, methods of evaluation.

Project Budget
Anticipated expenses, including details about how Foundation funds would be used, and anticipated income, including information about other sources approached for funding.

Organizational Budget
Previous and current year budgets and proposed budget for project year(s) showing both income and expenses, the organization’s most recent audited financial statement. Do NOT include IRS 990 forms.

Supporting Documents
List of current trustees, letters of support, readily available printed material about organization such as annual reports and brochures, IRS letter confirming Internal Revenue Code 501(c)(3) status and classification as a public charity or information confirming status as a government unit or agency.

The Foundation also will accept the Ohio Common Grant Form, available at www.OhioGrantmakers.org, if organizations are using it to apply to multiple funders. Faxed or electronic proposals are not accepted.

All grant applications and requests for information should be addressed to: The George Gund Foundation, 1845 Guildhall Building, 45 Prospect Avenue West, Cleveland, Ohio 44115 (telephone 216.241.3114).

All proposals are screened and evaluated by the staff before presentation at Trustee Meetings. Receipt of proposals will be acknowledged by mail.

Grantseekers may obtain information about other foundation and corporate funding sources at the Foundation Center Library in Cleveland, 1422 Euclid Avenue, or by calling 800.424.9836 for the locations of other Foundation Center offices.

*Term ended June 2008
The George Gund Foundation is a longtime supporter of programs and policies that emphasize the importance of a child’s early years. The photographs in the 2008 interactive online report reflect the work of Invest in Children, Cuyahoga County’s public-private early childhood partnership. Sage Sohier’s images offer a delightful glimpse into the daily lives of these preschoolers as they learn about the world around them and build the critical foundation needed for success in later life. Sohier, an artist and freelance photographer whose work is featured in numerous publications and public collections, is the recipient of many awards, including a prestigious John Simon Guggenheim Memorial Foundation Fellowship. She also has taught photography at a number of colleges and universities, including Wellesley College, the Rhode Island School of Design and Harvard University.

To view the online annual report, please visit www.GundFoundation.org/AnnualReport

Invest In Children
The George Gund Foundation thanks Invest in Children, a community-wide partnership working to help increase the development, funding, visibility and impact of early childhood services in Cuyahoga County. We would also like to thank the following schools and organizations for their generosity and cooperation in allowing us access to their students, teachers and staff.
